

## ESCoE Technical Report Series

### REMIT

The ESCoE Technical Report Series is a repository for papers that are primarily a resource for best practice in economic statistics. It aims to facilitate knowledge transfer and the sharing of best practice economic statistics, acting as an international focal point of reference for the development of economic statistics relevant for the modern economy. ESCoE Technical Reports are published throughout the year.

### SUBMISSIONS

The ESCoE welcomes and encourages submissions to its Technical Report Series that are relevant to ESCoE and its remit.

ESCoE researchers are encouraged to submit or solicit papers for the ESCoE Technical Report Series.

Submission to the ESCoE Technical Report Series should be made in .pdf format to [escoeinfo@niesr.ac.uk](mailto:escoeinfo@niesr.ac.uk). The e-mail accompanying the submitted paper should nominate a senior ESCoE researcher to give an opinion of its suitability for its inclusion in the ESCoE Technical Report Series in terms of topic, format and relevance; see <https://www.escoe.ac.uk/people/our-researchers/>. In the absence of the nomination of a suitable senior ESCoE researcher, the ESCoE Academic Co-Director may him/herself assess the suitability of a submission for the ESCoE Technical Report Series or may send the paper to an appropriate ESCoE associate to seek his/her recommendation.

All submissions to the ESCoE Technical Report Series are sent to the Office for National Statistics for possible comment.

### EDITORIAL POLICY

Editorial policy is deliberately light touch and primarily concerned with ascertaining the suitability of a paper for the ESCoE Technical Report Series. Any views expressed or results contained in the ESCoE Technical Report Series are solely those of the author(s) and do not represent those of ESCoE, its partner institutions or the Office for National Statistics.
