### **About the Office for National Statistics**

The Office for National Statistics (ONS) is the government agency responsible for compiling, analysing and disseminating many of the United Kingdom's economic, social and demographic statistics, including the retail prices index, trade figures and labour market data, as well as the periodic census of the population and health statistics. It is also the agency that administers the statutory registration of births, marriages and deaths in England and Wales. The Director of ONS is also the National Statistician and the Registrar General for England and Wales.

### **A National Statistics publication**

National Statistics are produced to high professional standards set out in the National Statistics Code of Practice. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political influence.

# Contents

	Page
<b>Units of measurement</b>	<b>vi</b>
<b>Introduction</b>	<b>1</b>
<b>Tables</b>	
<b>1 National accounts</b>	
1.1 Gross domestic product and gross national income	3
1.2 Gross domestic product: by category of expenditure	5
1.3 Gross domestic product: by category of income	7
1.4 Index numbers: gross domestic product, chained volume indices at basic prices: by industry of output	8
1.5 Households sector: allocation of primary income account	9
1.6 Households sector: secondary distribution of income account	10
1.7 Households sector: use of disposable income account	11
1.8 Household final consumption expenditure	12
1.9 Change in inventories at chained volume measures	14
1.10 Gross fixed capital formation by sector and type of asset	15
1.11 Business investment by industry, chained volume measures	17
1.12 Business investment by industry at current prices	18
1.13 Private sector manufacturing business investment by industry, chained volume measures	19
1.14 Private sector manufacturing business investment by industry at current prices	20
1.15 Private sector manufacturing business investment by asset	21
<b>2 Population and vital statistics</b>	
2.1 Mid-year estimates of resident population	22
2.2 Age distribution of estimated resident population at 30 June 2004	22
2.3 Births and marriages	23
2.4 Deaths registered	23
<b>3 Labour market</b>	
3.1 Labour market activity	24
3.2 Distribution of the workforce	24
3.3 Employee jobs: all industries	25
3.4 Civil Service staff: analysis by ministerial responsibilities	27
3.5 Intake and outflow of UK Regular Armed Forces Personnel	27
3.6 UK armed forces full-time strengths	28
3.7 Number of workers employed in agriculture	29
3.8 Unemployment in United Kingdom	30
3.9 Claimant count in United Kingdom: by duration	31
3.10 Claimant count	32
3.11 Unemployed: by Government Office Regions	33
3.12 Claimant count: by Government Office Regions	34
3.13 Vacancies at Jobcentres and career offices: by Government Office Regions	35
3.14 Labour disputes	36
<b>4 Social services</b>	
4.1 National Insurance and Child Benefit	37
4.2 Child and Working Tax Credit	37
4.3 Income Support/Pension Credit/Jobseeker's Allowance (income based)	38
4.4 Family health services	38
<b>5 Law enforcement</b>	
5.1 Recorded crime statistics: England and Wales	39
5.2 Crimes and offences recorded by the police: Scotland	39
<b>6 Agriculture, food, drinks and tobacco</b>	
6.1 Land use and crop areas	40
6.2 Crops: yields and production	40
6.3 Livestock	41
6.4 Animals slaughtered and meat produced	41

# Contents

	<b>Page</b>
6.5 Cereals and cereal products	42
6.6 Production of compound feedingstuffs	42
6.7 Potatoes and sugar	43
6.8 Production of bacon, ham and canned meat and meat stocks in cold storage	43
6.9 Fish, oils and fats	44
6.10 Milk, milk products and eggs	44
6.11 Beverages and confectionery	45
6.12 Tobacco products released for home consumption	45
6.13 Alcoholic drink	46
<b>7 Production, output and costs</b>	
7.1 Output of the production industries	47
7.2 Productivity jobs and output per filled job	52
7.3 Key productivity measures	53
<b>8 Energy</b>	
8.1 Inland energy consumption: primary fuel input basis	54
8.2 Supply and use of fuels	55
8.3 Coal supply	57
8.4 Inland use and stocks of coal	57
8.5 Natural gas production and supply	58
8.6 Fuel used by and electricity production and availability from the electricity supply industry	58
8.7 Sales by the gas and public electricity supply systems	59
8.8 Indigenous production, refinery receipts, arrivals and shipments of oil	59
8.9 Deliveries of petroleum products for inland consumption	60
<b>9 Chemicals</b>	
9.1 Fertilisers	61
9.2 Sulphur and sulphuric acid	62
9.3 Basic chemicals, pesticides and other agro-chemical products	63
9.4 Pharmaceutical products, soaps and other cleaning preparations and perfumes	63
9.5 Other chemical products	64
<b>10 Metals, engineering and vehicles</b>	
10.1 Iron and steel	65
10.2 Supplies and deliveries of steel	65
10.3 Aluminium	66
10.4 Total engineering: total turnover of UK-based manufacturers	67
10.5 Mechanical, instrument and electrical engineering industries: volume index of turnover	68
10.6 Mechanical, instrument and electrical engineering industries: volume index of orders on hand	68
10.7 Mechanical, instrument and electrical engineering industries: volume index of net new orders	69
10.8 Passenger cars	70
10.9 Commercial motor vehicles	70
<b>11 Textiles and other manufactures</b>	
11.1 Index numbers of textiles and clothing industries	71
11.2 Household textiles, non-woven products, canvas and ropes	72
11.3 Knitted and crocheted products, lace and narrow fabrics	72
11.4 Wearing apparel, dressing and dyeing of fur, leather clothes	73
11.5 Miscellaneous products: goods not classified elsewhere	73
<b>12 Construction</b>	
12.1 Volume of construction output by all agencies by type of work at constant 2000 prices	74
12.2 Value of new orders obtained by contractors for new work at current prices	74
12.3 Building materials and components	75
12.4 Permanent dwellings started and completed	76
<b>13 Transport</b>	
13.1 Motor vehicles: new registrations in Great Britain	78
13.2 Motor vehicles currently licensed as at 31 December	78
13.3 Index numbers of road traffic and goods transport by road	79
13.4 Road casualties in Great Britain	79
13.5 Local bus services: vehicle kilometres and passenger journeys	80
13.6 Local bus services: fare indices	80
13.7 National Rail and London Underground	81

	<b>Page</b>
13.8 National Rail: freight traffic	<b>81</b>
13.9 UK airlines: aircraft kilometres flown, passengers and cargo uplifted	<b>82</b>
13.10 Merchant vessels registered in the United Kingdom	<b>84</b>
13.11 UK passenger movement by sea and air	<b>85</b>
13.12 UK passenger movement by sea and air: analysis of countries of landing and of embarkation	<b>86</b>
<b>14 Retailing</b>	
14.1 Index numbers of retail sales: volume and values, seasonally adjusted	<b>87</b>
14.2 Index numbers of retail sales: values, not seasonally adjusted	<b>87</b>
<b>15 External trade in goods</b>	
15.1 Values of United Kingdom total trade in goods	<b>89</b>
15.2 Volume and Price index numbers	<b>90</b>
15.3 United Kingdom trade in goods, by commodity group	<b>91</b>
15.4 Volume index numbers, by commodity group	<b>92</b>
15.5 Price index numbers, by commodity group	<b>93</b>
15.6 United Kingdom exports, by commodity	<b>94</b>
15.7 United Kingdom imports, by commodity	<b>95</b>
15.8 United Kingdom exports, by area	<b>96</b>
15.9 United Kingdom imports, by area	<b>97</b>
15.10 Import penetration and export sales ratios for products of manufacturing industry	<b>98</b>
<b>16 UK Balance of payments</b>	
16.1 Balance of payments: summary	<b>99</b>
16.2 Balance of payments: current account balances	<b>100</b>
16.3 Balance of payments: summary of financial account	<b>101</b>
<b>17 Government finance</b>	
17.1 Public sector finances	<b>102</b>
17.2 Central government transactions and fiscal balances	<b>103</b>
17.3 Public sector aggregates	<b>104</b>
17.4 Selected financial statistics	<b>105</b>
17.5 Monetary aggregates	<b>106</b>
17.6 Selected interest rates, exchange rates and security prices	<b>106</b>
<b>18 Prices and wages</b>	
18.1 Consumer Prices Index: by division	<b>107</b>
18.2 Consumer Prices Index: by division, group and classes	<b>108</b>
18.3 Retail Prices Index	<b>110</b>
18.4 Retail Prices Index: groups, sub-groups and sections	<b>111</b>
18.5 Retail Prices Index (All items)	<b>113</b>
18.6 Harmonised Indices of Consumer Prices (HICPs): international comparisons: EU countries	<b>114</b>
18.7 Internal purchasing power of the pound	<b>114</b>
18.8 Tax and Price index	<b>115</b>
18.9 Index numbers of producer prices	<b>116</b>
18.10 House Price Index, by Government Office Regions	<b>120</b>
18.11 Index of purchase prices of the means of agricultural production and of producer prices of agricultural products	<b>121</b>
18.12 Average weekly and hourly earnings and hours of full-time employees on adult rates	<b>122</b>
18.13 Average weekly and hourly earnings of full-time employees on adult rates by industry division	<b>123</b>
18.14 Average weekly and hourly earnings of full-time employees by age group	<b>124</b>
18.15 Average earnings index: all employee jobs: by industries	<b>125</b>
18.16 Average earnings index: all employees: main industrial sectors	<b>129</b>
<b>19 Leisure</b>	
19.1 Television licences	<b>131</b>
19.2 UK cinema statistics	<b>131</b>
19.3 Average issue readership of national daily newspapers	<b>132</b>
19.4 Overseas travel and tourism	<b>132</b>
<b>20 Weather</b>	
20.1 District summary	<b>133</b>
20.2 UK annual summary	<b>133</b>
<b>Index</b>	<b>134</b>

# Units of Measurement

## Length

1 millimetre (mm)		= 0.03937 inch
1 centimetre (cm)	= 10 millimetres	= 0.3937 inch
1 metre (m)	= 1,000 millimetres	= 1.094 yards
1 kilometre (km)	= 1,000 metres	= 0.6214 mile
1 inch (in.)		= 25.40 millimetres or 2.540 centimetres
1 foot (ft.)	= 12 inches	= 0.3048 metre
1 yard (yd.)	= 3 feet	= 0.9144 metre
1 mile	= 1,760 yards	= 1.609 kilometres

## Area

1 square millimetre (mm <sup>2</sup> )		= 0.001550 square inch
1 square metre (m <sup>2</sup> )		= 1.196 square yards
1 hectare (ha)	= 10,000 square metres	= 2.471 acres
1 square kilometre (km <sup>2</sup> )		= 247.1 acres
1 square inch (sq. in.)		= 645.2 square millimetres or 6.452 square centimetres
1 square foot (sq. ft.)	= 144 square inches	= 0.09290 square metre or 929.0 square centimetres
1 square yard (sq. yd.)	= 9 square feet	= 0.8361 square metre
1 acre	= 4,840 square yards	= 4,046 square metres or 0.4047 hectare
1 square mile (sq. mile)	= 640 acres	= 2.590 square kilometres or 259.0 hectares

## Volume

1 cubic centimetre (cm <sup>3</sup> )		= 0.06102 cubic inch
1 cubic decimetre (dm <sup>3</sup> )	= 1,000 cubic centimetres	= 0.03531 cubic foot
1 cubic metre (m <sup>3</sup> )		= 1.308 cubic yards
1 cubic inch (cu.in.)		= 16.39 cubic centimetres
1 cubic foot (cu. ft.)	= 1,728 cubic inches	= 0.02832 cubic metre or 28.32 cubic decimetres
1 cubic yard (cu. yd.)	= 27 cubic feet	= 0.7646 cubic metre

## Capacity

1 litre (l)	= 1 cubic decimetre	= 0.2200 gallon
1 hectolitre (hl)	= 100 litres	= 22.00 gallons
1 pint		= 0.5682 litre
1 quart	= 2 pints	= 1.137 litres
1 gallon	= 8 pints	= 4.546 litres
1 bulk barrel	= 36 gallons (gal.)	= 1.637 hectolitres

## Weight

1 gram (g)		= 0.03527 ounce avoirdupois
1 hectogram (hg)	= 100 grams	= 3.527 ounces or 0.2205 pound
1 kilogram (kg)	= 1,000 grams or 10 hectograms	= 2.205 pounds
1 tonne (t)	= 1,000 kilograms	= 1.102 short tons or 0.9842 long ton
1 ounce avoirdupois (oz.)	= 437.5 grains	= 28.35 grams
1 pound avoirdupois (lb.)	= 16 ounces	= 0.4536 kilogram
1 hundredweight (cwt.)	= 112 pounds	= 50.80 kilograms
1 short ton	= 2,000 pounds	= 907.2 kilograms or 0.9072 tonne
1 long ton (referred to as ton)	= 2,240 pounds	= 1,016 kilograms or 1.016 tonnes
1 ounce troy	= 480 grains	= 31.10 grams

## Energy

British thermal unit (Btu)	= 0.2520 kilocalorie	(kcal) = 1.055 kilojoule (kj)
Therm	= 10 <sup>5</sup> British thermal	units = 25,200 kcal = 105,506 kj
Megawatt hour (MWh)	= 10 <sup>6</sup> watt hours (Wh)	
Gigawatt hour (GWh)	= 10 <sup>6</sup> kilowatt hours = 34,121 therms	

## Food and drink

Butter	23,310 litres milk	= 1 tonne butter (average)
Cheese	10,070 litres milk	= 1 tonne cheese
Condensed milk	2,550 litres milk	= 1 tonne full cream condensed milk
	2,953 litres skimmed milk	= 1 tonne skimmed condensed milk
Milk	1 million litres	= 1,030 tonnes
Milk powder	8,054 litres milk	= 1 tonne full cream milk powder
	10,740 litres skimmed milk	= 1 tonne skimmed milk powder
Eggs	17,126 eggs	= 1 tonne (approximate)
Sugar	100 tonnes sugar beet	= 92 tonnes refined sugar
	100 tonnes cane sugar	= 96 tonnes refined sugar

## Shipping

Gross tonnage	= total volume of all the enclosed spaces of a vessel, the unit of measurement being a 'ton' of 100 cubic feet.
Deadweight tonnage	= Deadweighttonnage is the total weight in tons of 2,240 lb. that a ship can legally carry, that is the total weight of cargo, bunkers, stores and crew.

## Monthly Digest Navigation Instructions

### Overview

This PDF file of Monthly Digest has been created from the pages of the book. These brief instructions will help you find your way around the electronic publication.

### Navigation

The PDF file has a 'bookmarks' panel down the left hand side, which allows you to jump from one section to another. The main chapters have lower levels of bookmarks enabling you to jump to the tables contained in each chapter. You can show and hide the bookmarks panel using the show/hide navigation buttons on the Acrobat Reader toolbar at the top of the screen. Thumbnails (small replicas of the pages) are also available in the navigation pane. Clicking on a thumbnail of a page will allow you to jump to that page. Similarly, clicking on the Contents table will permit you to skip to any chapter or individual table.

### Searching

The first large binoculars (find) button at the top of the screen will do a simple search on a word in the current document. To see if the word appears again in the publication click again on the binoculars button.

### Spreadsheets

Clicking anywhere on a table number, table title or the main body of a table will launch an Excel file. A number of the tables in this pdf document are spread over more than page. Efforts have been made to combine these into a single worksheet in each of the corresponding Excel files. Where this has not been possible, as where units or periodicity differ from page to page, each page has been accorded its own separate worksheet within the same Excel file. The worksheet tabs and the instructions appearing in red at the top of the affected tables indicate how each has been treated. To permit the data in the Excel spreadsheets to be used in calculations, it has also been necessary to remove "flags" and footnote indicators from the numbers in the files.

In the event of differences between the data appearing in the Excel files and those presented in the corresponding pdf tables, the pdf versions are to be regarded as definitive.

### Index

Clicking on an index entry will take you automatically to the relevant table.

### Screen Resolution

Adobe Acrobat works with any screen resolution. For this product 800x600 is acceptable, but 1024x768 works better if the monitor and graphics card will support it. To change the view type to one which best suits your screen, use the View menu.

### Other

If the text looks blurry on screen, this may be improved by visiting File Menu, Preferences, General and switching 'Smooth Text and Monochrome images' off.

# Introduction

This publication has been prepared by the Office for National Statistics (ONS) in collaboration with a number of government departments and other organisations. The assistance provided by them is gratefully acknowledged.

The name of the department or organisation providing the statistics is shown under each table, additionally, on some tables this is followed by a contact telephone number.

All the data series published in the *Monthly Digest* are contained on an ONS database, and nearly all are stored with a four letter identification code (e.g. ABMZ). These codes appear at the start of columns or rows so that they can be quoted if you contact us requiring any further information.

The latest Annual Supplement to *Monthly Digest* was published in the January 2006 edition. This gives detailed definitions and explanatory notes and includes an index of sources.

## Definitions and classifications

The following general definitions should be noted in using the *Digest*:

**Area covered.** Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

**Seasonality.** Except where otherwise stated, all statistics are not adjusted to take account of seasonal factors.

The UK Standard Industrial Classification 1992 is used in a number of tables in this digest to split economic activity. Full details are available from *UK Standard Industrial Classification of Economic Activities 1992*, and *Indexes to the UK Standard Industrial Classification of Economic Activities 1992*, both available from Palgrave Macmillan.

Regional classification is based on the Government Office Regions.

## Symbols and conventions used

**Change of basis.** Where consecutive figures have been compiled on different bases and are not strictly comparable, a footnote is added indicating the nature of the difference. Also, a line may be drawn across a column between two consecutive figures indicating that the figures above and below the line have been compiled on different bases.

**Units of measurement.** The various units of measurement used in this digest are listed on the opposite page.

**Symbols.** The following symbols have been used throughout:

.. = not available (also information suppressed to avoid disclosure)

- = nil or less than half the final digit shown

† = indicates that the data have been revised

p = provisional data

since the last edition: the period marked is the earliest in the table to have been revised

Also, some tables have symbols specific to them. These will be explained in the footnotes to those tables.

**Rounding of figures.** In tables where figures have been rounded to the nearest final digit, there may be a slight discrepancy between the sum of the constituent items and the total as shown.

## Provisional data

Some figures are provisional and may be subject to revision in later editions. This applies particularly to data for the most recent time periods. Where data has been revised a dagger symbol, as previously mentioned, will appear.

**National Statistics Online:** [www.statistics.gov.uk](http://www.statistics.gov.uk)

Web-based access to time series, cross sectional data and metadata from across the Government Statistical Service (GSS), available using the site search and index functions from the homepage. Download many datasets, in whole or in part, or consult directory information for all GSS statistical resources, including censuses, surveys, periodicals and enquiry services. Information is posted as PDF electronic documents or in XLS and CSV formats, compatible with most spreadsheet packages.

## Time Series Data

Access to around 40,000 time series, of primarily macro-economic data, drawn from the main tables in a range of our major economic and labour market publications. Download complete releases, or view and download your own customised selection of individual time series.

## Introduction and Acknowledgements

Complete copies of this publication are available to download free of charge on the following web page.  
[www.statistics.gov.uk/monthlydigest](http://www.statistics.gov.uk/monthlydigest)

Web: [www.palgrave.com/ons](http://www.palgrave.com/ons), email: [ons@palgrave.com](mailto:ons@palgrave.com)

### **Note to Readers**

**Local authority staffing.** The old table 3.7 (Monthly Digest February 2005) on Local authority staffing has been dropped from this edition. The methodology underlying this has been reviewed as part of the review of public sector employment, and has been found to be below the standard required for publication.

# Acknowledgements

### **Contributors**

The Editor wishes to thank all her colleagues in ONS, the rest of the Government Statistical Service and all contributors in other organisations for their generous support and helpful comments.

1 Estimates given to the nearest million but cannot be regarded as accurate to that degree

2 Quarterly alignment adjustment included in this series.

3 Includes mixed income and the operating surplus of non-corporate sector less the adjustment for financial intermediation services indirectly measured (FISIM)

1 Components of output are valued at basic prices, which excludes taxes less subsidies on products, whereas GDP is valued at market prices.

2 The latest data for the index of production (series CKYW) are presented in Table 7.1. The figures given in this table are consistent with the figures for gross value added.

3 Includes an implicit discrepancy compared with the sum of the previous columns because the GDP aggregate takes account of other information based on incomes and expenditures.

4 The weights shown are in proportion to total gross value added (GVA) in 2002 and are used to combine the industry output indices to calculate the totals for 2003 and 2004. For 2002 and earlier, totals are calculated using the equivalent weights for the previous year (eg total for 2002 use 2001 weights).

1 The data in this table include revised figures for self-employment to reflect the results of the 2001 Census.

2 Estimates for employee jobs and workforce jobs for Great Britain now use the Annual Business Inquiry as a benchmark on which the quarterly movements are based. For further information see Labour Market Statistics First Release April 2001.

3 Estimates of the self-employed are based on the results of the Labour Force Survey. The estimates given in the table are unadjusted.

4 HM Forces figures, provided by the Ministry of Defence, represent the total number of UK service personnel, male and female, in HM Regular Forces wherever serving and including those on release leave. The numbers are not subject to seasonal adjustment.

1 The figures include non-industrial and industrial staff but exclude casual or seasonal staff and employees of the Northern Ireland Civil Service.

2 A comprehensive list of Machinery of Government changes is listed on the Cabinet Office's web site at: [www.civil-service.gov.uk/statistics](http://www.civil-service.gov.uk/statistics)

3 Since a Cabinet Office review of data collections in April 1999, data is now collected on a six monthly basis.

4 Figures included are measured as 'full-time equivalent' staff. Part-time staff are recorded as a proportion of full-time employees according to the proportion of a full week that they work.

1 Intake from civilian life, includes re-enlistments and rejoined reservists.

2 Outflow includes recalled reservists on release and outflow to the Home Service battalions of the Royal Irish Regiment.

3 Naval Service comprises Royal Navy, Royal Marines and Queen Alexandra's Royal Naval Nursing Service (QARNNS).

Source: Defence Analytical Services Agency: 020 7218 1546

Army Officer intake figures at 1st April 2006 are provisional pending investigation. Due to the introduction of a new Personnel Administration Administration System for RAF, all RAF data for 1st April 2006 are provisional and subject to review.

Due to the rounding methods used, totals may not always equal the sum of the parts. When rounding to the nearest 10, numbers ending in 5 have been rounded to the nearest multiple of 20 to prevent systematic bias.

1 Figures exclude farmers, partners, directors and their spouses, salaried managers, school children and most trainees. Includes estimates for minor holdings.

2 In 1998, fundamental changes were introduced to the labour questions on the June Agricultural and Horticultural Census in England, Wales and Scotland. It appears that this change in questions may have led to the recording of additional Labour who were not previously included in the returns. The change in questions has also led to a redistribution of labour between the various categories. We therefore advise caution when comparing the results from 1998 onwards with previous years.

3 Due to an English register improvement only the top figure for 2001 is directly comparable with June 2000, while the bottom figure for 2001 is only comparable with data from June 2002.

1 The seasonally adjusted series relate only to claimants aged 18 or over in order to maintain the consistent series, available back to 1971 (1974 for the regions - see p.608 of the December 1990 *Employment Gazette* and pS16 of the April 1994 issue for the list of discontinuities taken into account). It also takes into account the effect of the change in benefit eligibility rules introduced with Jobseeker's Allowance (see p.219-24, Labour Market Trends, May 2000). The latest national and regional seasonally adjusted claimant count figures are provisional and are subject to revision mainly in the following month.

2 Percentage rates have been calculated by expressing the number of claimants as a percentage of the estimated total workforce (the sum of claimants, employees jobs, self-employed, HM Forces and participants on work related government training programmes) at mid-2002 estimates for 2002 and 2003 figures and at the corresponding mid-year estimates for earlier years.

1 Due to slight methodological differences between the way the national and regional LFS estimates have been interim adjusted for the 2001 Census, there may be small differences between the UK totals and the sum of the regional components.

2 Unemployed as a percentage of total economically active (the sum of unemployed and those in employment).

1 The seasonally adjusted series relate only to claimants aged 18 or over in order to maintain the consistent series, available back to 1971 (1974 for the regions - see p.608 of the December 1990 *Employment Gazette* and pS16 of the April 1994 issue for the list of discontinuities taken into account). It also takes into account the effect of the change in benefit eligibility rules introduced with Jobseeker's Allowance (see p.219-24, Labour Market Trends, May 2000). The latest national and regional seasonally adjusted claimant count figures are provisional and are subject to revision mainly in the following month.

2 Percentage rates have been calculated by expressing the number of claimants as a percentage of the estimated total workforce (the sum of claimants, employees jobs, self-employed, HM Forces and participants on work related government training programmes) at mid-2002 estimates for 2002 and 2003 figures and at the corresponding mid-year estimates for earlier years.

1 Only a proportion of all vacancies are notified to Jobcentres. These could include some that are suitable for young persons and similarly vacancies notified to careers offices could include some for adults. Because of possible duplication the two series should not be added together. The figures represent only the number of vacancies notified by employers and remaining unfilled on the day of the count.

2 The publication of the vacancy figures for Northern Ireland has been suspended since March 1999 as a result of a difficulty caused by the introduction of a new computer system for processing vacancies to Training and Employment Agency offices. For the purpose of the seasonally adjusted United Kingdom figures it has been assumed provisionally that the Northern Ireland figures have remained constant since February 1999.

3 Publication of the Jobcentre vacancy statistics has been deferred. Figures from May 2001 are affected by the introduction of Employer Direct. This major change involves transferring the vacancy taking process from local Jobcentres to regional Customer Service Centres, as part of Modernising the Employment Service. ONS and the Department of Work and Pensions will continue to monitor and review the data with the aim of publishing the series as soon as it is possible to produce a consistent measure.

<sup>1</sup> Excludes stoppages involving fewer than 10 workers or lasting less than one day except any in which the total number of working days lost are 100 or more. There may be some under-recording of small or short stoppages; this would have much more effect on the total stoppages than on working days lost.

<sup>2</sup> The working days lost figures relate to the total working days lost within each of the periods shown as a result of stoppages *in progress* in that period, whether the stoppages began in that period or earlier.

1 Child Benefit figures are taken from the Child Benefit Computer System 5% scan in the months shown. Figures exclude overseas cases.

2 Jobseeker's Allowance (JSA) figures have been derived by applying 5% proportions to 100% WPLS totals. Excludes recipients of contribution based and income based benefit.

3 Excluding pensioners in receipt of non-contributory State Pension awarded under National Insurance Acts 1970 and 1971. Also excludes overseas and Channel Islands.

4 Includes all Widow's Benefit and Bereavement Benefit except Widow's Payment and Bereavement Payment. Excludes overseas and Channel Island cases.

5 The figures for Incapacity Benefit are calculated from 100% counts but are provisional and therefore subject to amendment.

6 From October 2003, Child Benefit is the responsibility of the Inland Revenue.

1 IS claimants have been assigned to a statistical group according to a hierarchy. The order is as shown in the table, i.e. "Aged 60 and over", "Incapacity Benefits" etc. For example, lone parents with both Incapacity Benefits and Income Support will fall into the "Incapacity Benefits" category.

2 "Aged 60 and over" are benefit units where the claimant and/or partner is aged 60 or over.

3 "Incapacity Benefits" refer to claimants aged under 60 claiming Incapacity Benefit (IB) or Severe Disablement Allowance (SDA), including IB credits only cases.

4 "Lone Parents" are single recipients of Income Support aged under 60 with a child under 16 who are not in receipt of IB/SDA.

5 "Others" are recipients of Income Support not in one of the other categories.

6 Since 6th October 2003, Income Support for claimants aged 60 or over have been paid via the new Pension Credit. Pension Credit eligibility is also more generous than prior to 6th October 2003, increasing the numbers of pensioners in receipt.

7 JSA figures have been derived by applying 100% WPLS proportions to 5% totals.

1 Data on Ophthalmic Services are collected six-monthly and presented against the second quarter covered.

2 The data covers all prescriptions dispensed by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered.

3 Number scheduled for payment in the General Dental Service.

4 Includes prescriptions dispensed by Community Pharmacies, appliance suppliers, dispensing doctors and stock orders.

- 1 The counting rules were revised on 1 April 1998 with an expanded coverage of offences and the emphasis more on measurement of one crime per victim. All offences that are triable on indictment and triable-either-way are now included as are some summary offences which are closely linked to more serious offences. The changes mainly impact on the violence against the person, fraud and forgery, drug offences and "other" offence groups.
- 2 Some forces adopted the principles of the National Crime Recording Standard in advance of its national implementation on 1 April 2002. For 2001/02 as a whole it has been calculated that this in itself has inflated the total number of crimes recorded by 5%, although the impact differs for each offence group.

- 3 The National Crime Recording Standard was introduced across all police forces from April 2002, and this has increased the recorded crime figures significantly. For 2002/03 it has been estimated that the implementation of the Standard has inflated the total number of recorded crimes by 10%, although the impact differs for each offence group. Violence against the person was particularly affected.
- 4 Much of the increase in violence against the person in 2003/04 is likely to be due to the continuing impact of changes in recording.
- 5 The Sexual Offences Act 2003, introduced in May 2004, re-defined many sexual offences. This change in legislation could, in itself, account for much of the increase in recorded sexual offences and means figures for 2004/05 are not comparable with earlier years.

1 Owing to change in methodology, the data are now collected on a quarterly basis, and consequently, data cannot be provided for the intermediate months.

2 Stocks held in cold stores for private concerns or in undischarged basis, and consequently, data cannot be provided for the intermediate months.

3 2004 is a 53 week statistical year, December is a 5 week statistical month rather than the usual 4 week statistical month.

1 This series contains revisions following the incorporation of revised trade figures.

2 Comprising stocks of crude and refined oils held by seed crushers, oil refiners and manufacturers of margarine, solid cooking fat and other table spreads.

3 For the manufacture of margarine, solid cooking fat and other table spreads only.

4 Including quantities held by hardeners and refiners of oil and manufacturers of margarine.

5 Stocks are as at the end of December.

6 Figures for oilseeds and nuts, vegetables oils and marine oils for June 2004 are for six monthly totals.

7 Figures for 1999 - 2003 are shown in actual annual totals.

1 Data are available only quarterly.

2 Percentage alcohol by volume.

3 Made wine with alcoholic strength 1.2% to 5.5%, includes alcoholic lemonade of appropriate strength.

4 From 28 April 2002 duty on spirit-based ready-to-drink (RTDs) products is charged at the same rate as spirits per litre of alcohol. Until September 2002, RTDs were recorded under the imported and spirits. Customs and Excise have now been able to estimate the amount of RTDs under the spirits and remove them from the spirits clearances. Spirit-based RTDs were previously dutied at the made wine rate.

5 Includes imported spirits.

6 Due to the effect of the holiday period, these figures are subject to greater uncertainty than usual.

7 HMRC revised the beer production and clearances data back to April 2005 with the latest available information.

Note: The figures contain, where appropriate, an adjustment for stock changes.

2 These sum to the total of 1 000 for the production industries.

3 Includes adjustments to standardise the length of months.

1 Unadjusted data may be obtained from the Office for National Statistics, IOP Branch, Government Buildings, Cardiff Road, Newport, NP10 8XG.

Note: The full productivity and unit wage costs data sets with associated articles can be found on the National Statistics website at: [www.statistics.gov.uk/productivity](http://www.statistics.gov.uk/productivity).

Source: Office for National Statistics

1 Output per filled job is the ratio of the output index numbers published in Table 7.1 and productivity jobs. A monthly series for total manufacturing industries is presented in Table 7.3.

2 Whole economy output per job is based on Gross Value Added at Basic Prices.

1 Not temperature corrected.

2 Coal, petroleum and natural gas are temperature corrected.

3 For details of temperature correction see DTI energy statistics website at [www.dti.gov.uk/energy/inform/dukes/dukes2004/01longterm.pdf](http://www.dti.gov.uk/energy/inform/dukes/dukes2004/01longterm.pdf).

4 Includes solid renewable sources (wood, straw, waste, geothermal and active solar heat) net foreign trade and stock changes in other solid fuels.

5 Excludes non-energy use.

6 Includes gas used during production, colliery methane, landfill gas and sewage gas. Excludes gas flared or re-injected and non-energy use of gas.

7 Includes generation at wind stations. Excludes generation from pumped storage stations.

1 Layout comparable with annual balances published in Table 1.1 of DUKES 2003.

2 Stock fall (+), stock rise (-).

3 Primary supply minus primary demand.

4 Annual transfers should ideally be zero. For manufactured fuels differences occur in the rescreening of coke to breeze. For oil and petroleum products differences arise due to small variations in the calorific values used.

5 Generation of heat for sale under the provision of a contract; data are not available before 1999 and for 1998 coal used for generating heat for sale will have been included as final use by the sector generating the heat.

6 Includes all manufactured solid fuels, benzole, tars, coke oven gas and blast furnace gas.

7 Includes colliery methane.

8 Includes heat sold.

9 Includes geothermal and solar heat. Latest quarter is estimated from the previous year and adjusted according to average annual rate of change over the last three years.

10 Includes public administration, commercial, agriculture and miscellaneous use.

1 Includes an estimate for slurry.

2 Import figures are being estimated on the basis of information available for extra-EC trade until monthly statistics for intra-EC trade become available from the Office for National Statistics.

1 Disposals by collieries and opencast sites.

2 Coal-fired power stations belonging to major electricity generating companies.

3 Generation of heat for sale under the provision of a contract.

4 Low temperature carbonisation and patent fuel plants.

5 Includes estimates of imports.

6 Including miners' coal.

7 Includes public administration and commerce.

8 Excluding distributed stocks held in merchant's yards, etc, mainly for the domestic market, and stocks held by the industrial sector.

1 Includes waste and own use but excludes gas flared.

2 Gas used for drilling, production and pumping operations.

3 Includes exports direct from the UKCS as well as others carried out by the downstream gas industry from the national transmission system.

4 Gas available at terminals for consumption in the UK as recorded by the terminal operators.

5 Gas input into inland transmission systems. It includes public gas supply, direct supply by North Sea producers, third party supplies, and

stock changes. Figures differ from gas available for consumption in the UK mainly because of additional stock changes at local distribution zones. The figures also differ from total consumption (expressed in oil equivalent in Table 8.1) because they exclude producers' and operators' own use and losses.

6 Including public gas supply, direct supplies by North Sea producers, third party supplies and stock changes.

1 Fuel used and electricity generated by major power producers and electricity available through the grid in England and Wales and from distribution companies in Scotland and Northern Ireland. For further information regarding major power producers please refer to Section 8 of the *Annual Supplement* in the January edition of *Monthly Digest*.

2 Including quantities used in the production of steam for sale.

3 Including oil, windpower and refuse-derived fuel.

4 Used in works and for pumping at pumped storage stations.

5 Including gas turbines, oil engines and plants producing electricity from renewable sources other than hydro.

6 Includes wastes and renewable sources.

7 Including net imports and purchases from outside sources mainly UKAEA and British Nuclear Fuels plc, and net of supplies direct from generators to final consumers.

1 The term indigenous is used in this table for convenience to include oil from the UK Continental Shelf as well as the small amounts produced on the mainland.

2 Foreign trade is as recorded by the petroleum industry and may differ from figures published in the *Overseas Trade Statistics*.

3 Crude oil plus condensates and petroleum gases derived at onshore treatment plants.

4 Crude oil plus NGLs.

5 Mainly recycled products (backflows to refineries).

6 Total arrivals less refinery shipments of crude oil, NGLs and process oils (ie partly refined products).

7 From January 2000 arrivals of petroleum products and marine bunkers contain estimated additions to allow for (temporarily) missing imports data.

1 The figures shown represent the output of UK - based manufacturers classified to Subsections DK and DL of the Standard Industrial Classification 2003. The figures shown are derived from the monthly production inquiry (MPI) and include estimates for non-responders and for establishments which are not sampled.

2 Orders on hand figures are given for the end of the period to which they relate.  
3 The data on this table are not seasonally adjusted.

1 Includes taxis for years up to 1994. Taxation group now restricted to only vehicles with 9 or more seats.

2 Includes agricultural vans and lorries and showman's goods vehicles licensed to draw trailers.

3 Includes combine harvesters, mowing machines, digging machines, mobile cranes and works trucks. Taxation group subject to revision from 1st July 1995, formerly termed the "agricultural and special machines" group.

4 Includes three-wheelers, pedestrian controlled vehicles and showman's haulage.

5 Vehicles in this taxation class are exempt from duty and form part of the "Crown and Exempt" taxation class with effect from January 2002.

1 Not exceeding 3.5 tonnes gross vehicle weight. Includes all car based vans and those of the next larger capacity such as transit vans.

2 Goods vehicles up to 3.5 tonnes gross vehicle weight.

3 The figures for road goods transport are estimated from a continuing sample enquiry; excluding estimates of work done by vehicles under 3.5 tonnes gross vehicle weight. The quarterly figures relate to 13-week periods and not three calendar months.

4 Figures affected by September 2000 fuel protest.

5 Provisional.

2 Figures for passenger kilometres have been revised. ATOC's analysis of further Travelcard survey data concluded that the effects of changes in customer behaviour resulting from the new products, and reported in provisional data, were overestimated. The new analysis has determined more realistic factors, which have also been applied respectively to ticket sales made in 2004 to reflect the timing of the introduction of the new products and also to enable a better comparison of trends moving forward.

1 National accounts entities as defined under the European System of Accounts 1995 (ESA95).

2 Net saving, plus capital taxes.

3 Gross capital formation, plus payments less receipts, of investment grants less depreciation.

4 Net borrowing = net investment minus surplus on current budget

5 Previously called Public Sector Borrowing Requirement (PSBR).

1 For further details see *Financial Statistics*, Tables 1.2E, 3.2B, 4.2A, 4.3A, 4.3B, 5.2D, 6.2A, 10.5D.

2 Total administered by the Department for National Savings.

3 Including open ended investment companies (OEICs).

4 Monthly figures relate to calendar months.

5 Data have been revised back to February 2003 due to the inclusion of some additional other specialist lenders and the removal of some non-resident based securitisation vehicles.

Note: Further information on the consumer prices index is available from the National Statistics website: [www.statistics.gov.uk/cpi](http://www.statistics.gov.uk/cpi)

<sup>3</sup> The coverage of these categories was extended in January 2000; further extensions to coverage came into effect in January 2001 for health and miscellaneous goods and services; the coverage of miscellaneous goods and services was further extended with effect from January 2002 (details are given in a series of Economic Trends articles available on the National Statistics website: [www.statistics.gov.uk/cpi](http://www.statistics.gov.uk/cpi))

<sup>1</sup> Prior to 10 December 2003, the consumer prices index (CPI) was published in the UK as the harmonised index of consumer prices (HICP).

<sup>2</sup> Inflation rates prior to 1997 and index levels prior to 1996 are estimated. Further details are given in *Economic Trends No. 541 December 1998*. These details are also available on the National Statistics website: <http://www.statistics.gov.uk/cpi/article.asp?ID=31&Pos=3&Col-Row=2&Rank=720>

Note: Further information on the RPI is available from the National Statistics Website: [www.statistics.gov.uk/rpi](http://www.statistics.gov.uk/rpi).

1 This series has been constructed using the index for all items excluding mortgage interest payments prior to February 1995.

2 Seasonal food is defined as items of food the prices of which show significant seasonal variations. These are fresh fruit and vegetables, fresh fish, eggs and home-killed lamb.

3 There are no weights available for RPIY.

Note: Indices are given to one decimal place to provide as much information as is available but precision is greater at higher levels of aggregation, ie at sub-group and group levels. Further information on the RPI is available from the National Statistics Website: [www.statistics.gov.uk/rpi](http://www.statistics.gov.uk/rpi).

2 The taxes excluded are council tax, VAT, duties, vehicle excise duty, insurance tax and airport tax. There are no weights available for RPIY.

- Published as the Consumer Prices Index (CPI) in the UK. (UK 2005=100, others 1996=100)
- The EICP (European Index of Consumer Prices) is the official EU aggregate. It covers 15 member states until April 2004 and 25 member states from May 2004, the new member states being integrated using a chain index

formula. The EU 25 annual average for 2004 is calculated from the EU 15 average from January to April and the EU 25 average from May to December.

3 The coverage of the European Union was extended to include Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia with effect from 1 May 2004. Data for the EU 25 average is only available from May 2004. Note: April 2006 data for 'Austria' and 'EU 25 average' is Provisional.

1 For information, the rebased back data for the headline PPI series is available under related links at [www.statistics.gov.uk/ppi](http://www.statistics.gov.uk/ppi)

2 A base weighted (1995=100) combination of the separate price indices for contractors' output in the six new work sectors. For a fuller description see *Economic Trends* No 297.

3 From February 2002, data are based on a significantly enlarged return from the Survey of Mortgage Lenders, and are calculated through improved methodology. Annual and quarterly data prior to February 2002 are from the 5% Survey of Mortgage Lenders, and have been rebased to Feb 2002=100. From September 2005 the index is based on the new Regulated Mortgage Survey (CML/BankSearch).

4 Indicates values which are considered less reliable than the remainder currently published mainly due to the lack of market coverage.

5 The Climate Change Levy was introduced in April 2001. Further information on PPI is available from the National Statistics Website: [www.statistics.gov.uk/ppi](http://www.statistics.gov.uk/ppi).

1 Series based on prices at the mortgage completion stage collected through the Survey of Mortgage Lenders. The index takes into account the mix of properties sold.

2 The series starts at February 2002 rather than January 2002 because the required volume of completions was achieved from that date only.

3 From September 2005 the index is based on the new Regulated Mortgage Survey (CML/BankSearch).

1 Index numbers for the years 1983 to 2003 on 1995 = 100 base and also at a more detailed level are available from the Department for Environment Food and Rural Affairs, Room 146, Kings Pool, 1-2 Peasholme Green, YO1 7PX. Tel 01904 455253.

2 The sum of the percentages of categories included in "Goods & Services consumed" and "All Products" do not add to 100% due to the exclusion of some minor categories.

3 All data and weights have been revised to be in line with Eurostat policy that the *Agricultural Account* and the *API* should be the same.

4 A revised feedstuffs index has been calculated and incorporated in this edition. Further details are available on request.

5 Formerly *General expenses*.

6 Primarily including Oilseeds, Linseed and Protein crops.

1 Results relate to Division D (SIC) 1992.

2 In 2004 a number of supplementary surveys were introduced to improve the coverage of the Annual Survey of Hours and Earnings. Data for 2004 are presented including these supplementary surveys (top). Figures are also presented excluding supplementary surveys (bottom) to give figures comparable with earlier years.

1 The above table of 20 industries was first published in the Monthly Digest in May 2002 (as table 18.11). The new set of 20 industry sectors was introduced as it better reflects the current state of the economy. Data are available in two formats: excluding bonus and including bonus, with each available as an index value and as an annual percentage change. An article

covering the reasons for change can be found on our website: [www.statistics.gov.uk/labour](http://www.statistics.gov.uk/labour).

2 Users should note that the data contained in the previous set of 26 industry sectors are not comparable with the new set of 20 industry sectors.

England & Wales	18.6	-7.3	0.5	-0.7	-0.1	1.2	0	98	143	90.9

Anomalies are with respect to the 1961-90 averaging period.

2 Highest maximum and lowest minimum air temperatures for each district are determined by calculating 95 percentiles.

1 District values for each element are computed using all available climate stations, excluding rooftop sites for minimum air temperature. The values in the table may not be compatible with other time series (eg. Central England Temperature, England and Wales Rainfall).

3 Raindays are the number of days during which the total precipitation is at least 0.2mm.
